Glue Free mounting system

CNC cut

## BENEFITS

Precise Installation

dbSoffit™ modular series come with everything needed for installation, including full-size and light-weight template for quick alignment of panel and fixing locations.

Better Spaces.

Improved acoustics: audibly reduces reverberation time.

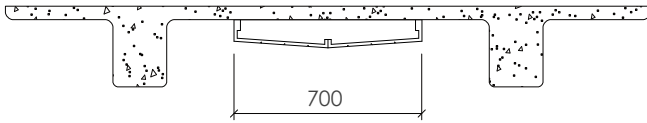

Visual Impact: A Variety of available material colours and printed surfaces offering ~78% light reflectance. Panels can be subtle or a feature design. Ask us about customization.

Future Proofing

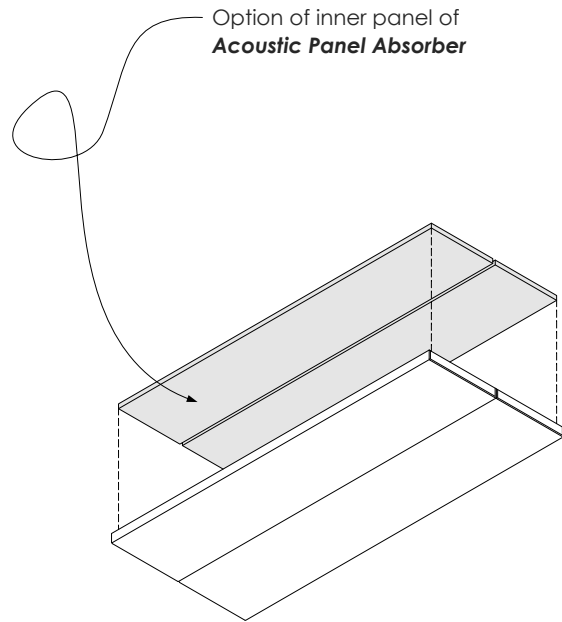

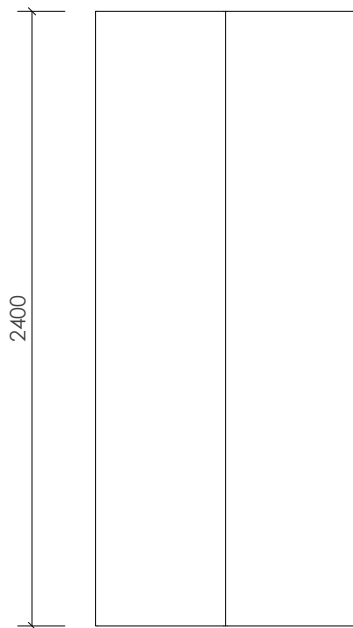

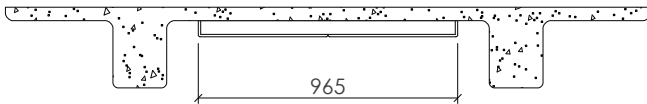

Easy to remove with Ready-Clip™ Direct fix. Durable panel construction with high impact resistance provides long-term stability and performance.
